

The following matrix breaks tasks into categories and areas. For each task, please enter a priority rating of A, B or C for each task or project. A ranking of A would be a project that was needed because of a safety or access issue, a missing piece that was preventing utility of an area, or perhaps known available funding source that is available. A B project would improve conditions and increase access, may be a relatively simple and low cost solution, and may be paried with another project that provides an opportunity. A C project would be one that is very desirable and would increase utility of the park, but may not currently be funded and may be more of a "wish list" item.

	Score	Policies and Procedures	Score	LPR Staff	Score	10-Year Infrastructure Plan	Score	Volunteer Opportunities	Score	Donation Opportunities
Day Camp						Replace Octagon Building with new permanent facility				Fundraising campaign for Octagon Building replacement
Parking Lots		Encourage pack-in pack-out behavior		Replace Bollards		Varmint Proof trash cans		Paint Bollards		Varmint Proof trash cans
				Possibly increase trash removal		Increase size of 14th Street lot for horse use				Bike Servicing racks (1st Street)
				continue to monitor surface needs (gravel)		Bike servicing racks at 1st St lot				
Signage					Info Kiosks in Parking Lots				Kiosks or wayfinding signage	
Bridges		Develop ID System for bridges		Monitor suspension bridge south of Old Cheney		Horse and Bike low water crossing of Cardwell Branch		Minor repair and painting of Bridges north of Calvert		Work with GPTN and Run for the Bridges for funding match
				Monitor bridge over Horizon Tributary		Repair Yankee Hill Bridge				
				Extend Culvert under Warlick Overpass						
				Review 14th Street Bridge - reroute trail to south						
				Abandon Bridge near RR South of Rokeby
